Dear Public Service Commission,

Care about today so tomorrow is taken care of.

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jean SongWinds 1738 Magic Dr Pamplico, SC 29583-6227
